

# GRIZZLY TAPE®

SCARY STRONG, EXTREMELY DURABLE AND WEATHER RESISTANT  
PE EXTRUDED TAPE

## TECHNICAL PROPERTIES

**Water resistance:** Very good

**Temperature resistance:** -30°C - +60°C (up to +80°C short periods)

**UV resistance:** Very good

## TECHNICAL SPECIFICATIONS

**Appearance:** Tape

**Chemical base:** PE extruded, with polyester/cotton weaving

**Colour:** Black

**Thickness:** approx. 0.3 mm

**Specifications:** The extrusion technology causes extremely high intrinsic strength and prevents delamination. The extra thick quality ensures a lasting and smooth result.

## STORAGE CONDITIONS

Store in tightly closed packaging in a dry, cool and frost-free place.

## PRODUCT DESCRIPTION

Scary strong, extremely durable and weather resistant PE extruded cloth tape. This cloth tape can be easily torn by hand in both directions.

## FIELD OF APPLICATION

Suitable for waterproof repairing, fixing, strengthening and connecting all kind of jobs indoors and outdoors, in all weather conditions. Extremely durable especially for outdoor applications.

## PROPERTIES

- Scary strong (high tensile strength)
- For durable applications
- Weather, temperature and UV resistant
- Waterproof
- Can be easily torn off manually
- Smooth result
- Extra thick
- Clean removability

## PREPARATION

**Surface requirements:** The surface must be dry, clean and free of dust and grease.

## APPLICATION

### Directions for use:

Stick and press well the tape onto the object without touching the adhesive as this reduces the adhesive strength.

**Stains/residue:** Remove possible tape residue with white spirit.
